PRACTICE

Practice means any role, whether remunerated or not, in which you use your skills and knowledge as a health practitioner in your profession. Practice is not restricted to the provision of direct clinical care. It also includes using professional knowledge in a direct non-clinical relationship with clients, working in management, administration, education, research, advisory, regulatory or policy development roles and any other roles that impact on safe, effective delivery of services in the profession.

RECENCY OF PRACTICE

To ensure that you can practise competently and safely, you must have recent practice in the field in which you intend to work during the period of registration for which you are applying.

The specific requirements for recency depend on the field of practice, your level of experience and the length of absence from the field.

If you propose to change your field of practice, the Board will consider whether your peers would view the change as a normal extension or variation in a field of practice, or a change that would require specific training and demonstration of competence.

Practitioners who are unable to meet the Board's registration standard for recency of practice may be required to complete professional development activities, submit a plan for re-entry to practice or other training or assessments.

For more information, view the full registration standard online at www.medicalboard.gov.au/Registration-Standards
