

## **Proposed registration standard for granting general registration as a medical practitioner to Australian and New Zealand medical graduates on completion of intern training.**

**DATE: 8 September 2011**

### **Introduction**

Thank you for the opportunity of commenting on this important consultation draft paper. The Office of the Health Services Commissioner (HSC) is an impartial alternative health disputes resolution unit which receives and resolves complaints from users of health services with a view to improving the quality of services for everyone. The HSC is a State based independent statutory authority. HSC has jurisdiction over all health service providers whether they are registered or not.

I have reviewed the Standard for granting general registration as a medical practitioner to Australian and New Zealand medical graduates on completion of intern training. The standard is comprehensive, sets out the standards to be set to achieve general registration, and is clear, well expressed and unequivocal.

I do not have anything further to suggest for this standard.

Beth Wilson  
**Health Services Commissioner**
