Dear Dr Katsoris,

Thank you for the invitation to the Australian Medical Council to comment on the consultation documents for the review of registration standards and guidelines for categories of limited registration.

The AMC notes the changes the Board is proposing to the documents reflect minor changes to address issues raised by stakeholders and to provide further clarification of current requirements. It is also noted that changes will be made to the wording and structure of the revised standards and guideline documents to make them clearer and easier to understand. The AMC supports Option 2 as outlined in each of the documents.

Yours sincerely
