Dear Sir/Madam

I am psychiatrist practicing in private setting in Townsville (north QLD), I very much appreciate the medical board's consultation on funding external doctors health program.

I feel that there is a need for such service for doctors especially in areas of mental health and alcohol and drug misuse, there is a lack of access to such service for medical practitioners especially in remote and regional areas, I am keen to be involved in the process i.e. survey etc Please do not hesitate to contact if needed.

Thanking you

Yours sincerely

Anand Gundabawady
