---

I fully agree with Miranda Devine's article in the Sunday Telegraph.29/07/18  
APHRA should have nothing to do of how a DR thinks & making an opinion.  
As far as I know we are still a free country & able to voice our opinions.

He has done nothing wrong by expressing his opinion.

I am referring to DR David van Gend.

I am pointing it out,I don't know this Doctor I live in NSW,but it shocked me he  
has to answer for his freedom of thought & opinion.

Your job is to investigate unlawful behaviour of health professionals NOT IN  
THEIR POLITICAL believes.

Regards

Eva Farkas
