Dear Sir/ Madam (No, I will not bow to you compelled speech),

You are a disgrace. How dare you engage in discriminatory conduct against a doctor who has the absolute right to freely speak out, or support a view that is not 'endorsed ' by you! You are no arbiter of free speech.

Get off your high an mighty horse, you ectoplasmic by-product, and when you have you can come and join the rest of the 'vulgar common herd'.

You people really need a reality check. You're no better than anyone else.

Sincerely

Andrew Wright.
