To whom it may concern

I have been with Trish Matheson for over 2 years under the supervision of doctor. When we first met we had a real time video with the doctor who asked about my past and current health, what medications I was on and any allergies.

Trish Matheson has always discussed what I wanted and then offered me advice we decided on a course of treatment and then the cost involved. We discussed side effects and how to manage them should I have any.

I am very happy having injections by Trish and joint consultations with the doctor by real time video, I see no reason why to change. The old saying goes "If it ain't broke don't fix it"

Regards
