

To the kind attention of the Executive Officer, Medical, AHPRA

Name

Address

I am writing this letter in response to the Public consultation in regards to the following changes proposed. Please note the following points in particular from the Medical Board Public Consultation Paper.

Page 56:

*2.5 Other than for minor procedures that do not involve cutting beneath the skin, there should be a cooling off period between the patient giving informed consent and the procedure of at least seven days.*

Page 58:

*7.2 Medical practitioners must not prescribe schedule 4 (prescription only) cosmetic injectables unless they have had a face-to-face consultation with the patient. A face-to-face consultation is required for each course of injections. Remote prescribing (for example, by phone, email, or video conferencing) of cosmetic injectables is not appropriate*

On a scale of 1-5 how would you rate the following aspects of the dual consultation as you participated in utilizing skype as the connectivity media to address your cosmetic concerns and plan a suitable treatment within this Beauty Salon. The scale is 1 being poor and 5 being excellent

1. How did you find the Anti Aging practice of dual consultation process using skype as the communication media between our Cosmetic Physician or Cosmetic Nurse Practitioner, the cosmetic injecting nurse and yourself? 5
2. Did you find the dual consultation process sufficiently detailed for these minor cosmetic procedures? 5
3. How would you note the level of cosmetic treatment understanding and collaboration between the Anti Aging team members to be? 5
4. Did you feel that you were placing yourself in safe and competent care with the Anti Aging team and feel empowered to make your own sound decisions regarding your treatment? 5

Comments

It is very convenient having it done at my beauty salon. I feel comfortable and that my privacy is respected.
