I can just see it now:

Doctor: “Who threw the acid in your face that blinded and disfigured you?”

Patient: “My father because I would not marry a man 60 years older than me.”

Doctor: “Serves you right! Let that be a lesson to you that when you finish primary school you must do as your told.”

Patient: “I’m not allowed to go to school”

Doctor: “Serves you right for choosing to be born into an ethnicity that believes females and cattle have equal status. Sorry, but I cannot help you. While you are here would you like me to make a small cut that will fix your problem of liking sex?”

Dr. Mengele would have fitted in well as a respected Board Member.

If you persist in promulgating this new censorship regime I will do all within my power to denigrate you and your lack of standards, and provide for an alternative for thinking Australians..
