Dear Secretary

Re: Public Consultation on Good Medical Practice

Thank you for the opportunity to contribute to the Medical Board Consultation via this email.

My background is that I spent some years in two overseas countries in support roles involving projects which assisted local people who could not afford medical treatment in their own countries. Medical care was provided at both Outpatient and Inpatient levels. Outpatient numbers could number well in excess of 100 Patients on Outpatient days. I believe that to make a change at present to the definition of the 'code of conduct' would not be beneficial to many, many Australians and certainly would not be understood or appreciated by those I previously worked amongst, and who now, in not insignificant numbers have made Australia their home.

Yours sincerely

Keith Riley
